

**Organizing your paper: Part II**  
**COMT/HDP 115, Fall 2009**  
**(DUE IN CLASS: Wednesday, November 4th)**

Prepare and bring in responses (hard copy) to the following questions:

1. What response(s) do you imagine yourself giving to your research question (the question you included in the first half of this assignment (which you turned in on October 21<sup>st</sup>)) ?
2. Specifically identify AT LEAST three pieces of evidence that you will use to try and address your question (i.e. tell me what kinds of documentation you will use to make your argument). Make sure that at least one piece of evidence is drawn from a source other than documentation you yourself gathered at TCLC.
  - a. Identify your evidence clearly. For example, if it is a field note, include the date and author, and short description of what the field note describes.
  - b. For EACH piece of evidence, also explain in one sentence how this particular example supports your argument. (so- a total of two sentences for each piece of evidence)
  - c. If you still lack the evidence you need, explain what you need to get it and your plans for getting it in the next week.
3. What readings do you plan to use and why? (1-3 sentence(s) max for each reading).
4. What can you NOT answer in the scope of this paper? What sorts of questions are left to examine? What would be required for further research on this topic?
